Building Bridges for Purposeful Global Healing: Interrelation and Mutuality in Clinical Ethics and Consultation

“In a real sense all life is inter-related. All (people) are caught in an inescapable network of mutuality, tied in a single garment of destiny.” — Martin Luther King Jr

The 20th ICCEC will focus on interrelatedness and mutuality, and how clinical ethics and consultation honor, strengthen, or perhaps sometimes challenges this. Those involved in clinical ethics come from a wide variety of professional, disciplinary, cultural backgrounds and practice in disparate clinical settings. The 2026 ICCEC celebrates this fact, serving as a global forum for collaborative learning, sharing, bridging divides, and promoting healing that recognizes our interrelatedness and mutual dependence.

Submissions will be accepted for digital content sessions (pre-recorded), and concurrent sessions in the form of papers presentations, panel discussions, workshops, and poster presentations. We invite you to be a part of the conversation by participating in the Call for Abstracts coming soon.

Early Bird Registration will open November 10, 2025
